

Aachen, 11 October 2013

## Save-the-date

Dear Madam/Sir,

The European projects [interactIVe](#) and [eCoMove](#) reached major accomplishments towards accident-free and decarbonised road traffic, by developing the next generation of Advanced Driver Assistance Systems and Cooperative Systems for safer, cleaner and more efficient driving.

After four years of leading research, we invite you to find out more about these trendsetting solutions at the

### **interactIVe - eCoMove press conference**

**20 November 2013 at 9:30 am**

**Venue: Eurogress Convention Centre, Aachen (Germany)**

Leading representatives from industries and research will highlight the project achievements and during a guided exhibition tour you will have the opportunity to learn more about the technologies of interactIVe and eCoMove.

Likewise we invite you to experience the accomplishments of both projects in driving demonstrations, specially organised for the press.

An official invitation including all details will be sent to you timely prior to this event.

Please click [here](#) to pre-register.
